IPRCE Brown Bag Series Presents:

Understanding and Preventing Teen Suicide: The Georgia Suicide Safer Communities for Youth Project

- Approximately 4,600 youth between the ages of 10 to 24 die by suicide annually in the U.S.
- In the U.S., 17% of high school students seriously considered attempting suicide and 8% made a suicide attempt.
- Suicide is the 3rd leading cause of death among youth ages 10-24 in Georgia.
- Nearly twice as many people die by suicide than by homicide in Georgia.
- Youth with suicidal ideation are less likely to ask for help and to receive mental health services and more likely to experience psychiatric symptoms (e.g., depression and substance use).

WHEN

Wednesday, March 7, 2018
11am-12pm
