The map shows the percentage of students in grades 6-12 who were above the state median of a composite score that reflects student self-reporting of behaviors associated with ACEs. The measures considered in the composite score are from the Georgia Student Health Survey (2019) and are related to the behaviors - bullying, fighting, substance use, anxiety/depression, and self-harm.

A higher percentage represents a greater rate of students in grades 6-12 reporting behaviors that have been associated with ACEs or that are ACEs.

UNDERSTANDING THE ACE COMPOSITE SCORE

The map shows the percentage of students in grades 6-12 who were above the state median of a composite score that reflects student self-reporting of behaviors associated with ACEs. The measures considered in the composite score are from the Georgia Student Health Survey (2019) and are related to the behaviors - bullying, fighting, substance use, anxiety/depression, and self-harm.

A higher percentage represents a greater rate of students in grades 6-12 reporting behaviors that have been associated with ACEs or that are ACEs.

ADVERSE CHILDHOOD EXPERIENCES COMPOSITE SCORE MAP

BAKER, CALHOUN, COLQUITT, DECATUR, DOUGHERTY, EARLY, GRADY, LEE, MILLER, MITCHELL, SEMINOLE, TERRELL, THOMAS, AND WORTH COUNTIES
