

Injury Prevention Research Center at Emory (IPRCE) CORE FACULTY ANNUAL RESEARCH COMPILATION

August 2019 – July 2020

*Vision: IPRCE is
dedicated to
reducing injury in
all the communities
we serve.*

This annual compilation is a reference guide containing the latest publications from our core faculty during the period of August 1, 2019 - July 31, 2020.

The publication topics are related to the following injury and violence areas: violence prevention (p. 1-16), traumatic brain injury prevention (p. 16-18), drug safety (p. 18-19), fall prevention (p. 20), and transportation safety. These areas of prevention are associated with the leading causes of unintentional and intentional injury and injury death in Georgia.

Please direct any questions about the research presented in this publication to the researchers who authored the studies.
